

International Young Scientists Competition

Research Project Description

Please provide the following on a separate cover sheet:

Title (max. 25 words):

Keywords (3):

Abstract (Summarize your project in 250 words or less):

Objective (Describe what question(s) you asked):

Please list any other competitions that you have entered with either this or any other project (please specify). Indicate whether you achieved a level of recognition, and if so, what level did you achieve?

Attach the full report to this document (maximum 10 pages, not including references). Your report should contain the following information (for details, see Instructions for Preparation of Competition Manuscript):

- Introduction
- Experimental Design
- Materials & Methods
- Timeline
- Results and Interpretation
- Discussion
- Conclusions
- References (Note: References do not count toward page limitations.)
- Laboratory Notebook
